Dallas, Texas | hannatuadn@gmail.com | (903)-246-2045

PROFESSIONAL SUMMARY

Fraud and Risk Analytics professional with a master's degree in Business Analytics and a bachelor's degree in accounting. Experienced in designing and deploying data-driven fraud detection, risk assessment, and decision-optimization solutions using SQL, Python, Power BI, Tableau, and cloud platforms. Background across Big-4 consulting, higher education, and financial services, with hands-on experience analyzing large-scale datasets, building risk-focused dashboards, and delivering actionable insights to senior stakeholders. Strong ability to translate complex analytical outputs into decision-ready insights that improve financial integrity, operational efficiency, and compliance.

SKILLS

- **Analytics Methods:** KPI Reporting, Forecasting, A/B Testing, Statistical Analysis, Exploratory Data Analysis
- **Business Intelligence & Analytics:** SQL, Python, Power BI, Tableau, Excel (Advanced), R, KPI Development, Dashboard Design, Financial & Operational Performance Analysis.
- **Cloud & Automation:** AWS, Azure, Power Automate
- **Data Management & Platforms:** Snowflake, Databricks, Apache Spark, Relational Databases, Data Validation & Quality Checks.
- **Data Pipelines & Automation:** ETL Pipelines, Reporting Automation, Workflow Optimization

PROFESSIONAL EXPERIENCE

East Texas A&M University| *Graduate Research Assistant, Institutional Effectiveness* *Dallas, Texas*| **08.2024 - present**

- Analyzed institutional student-outcome data using SQL and Python to identify trends in retention, graduation rates, and academic performance.
- Designed and implemented a data management solution supporting SACSCOC-aligned assessment workflows, improving data accuracy, and audit readiness.
- Built and maintained analytical reports and dashboards to support accreditation reviews and university leadership decision-making.
- Contributed to the development and execution of the Quality Enhancement Plan (QEP) through data-driven analysis and reporting.

Deloitte | *Business Data Analytics Associate* *Victoria Island, Lagos* | **01.2022 - 08.2024**

- Developed Tableau dashboards and analytical reports tracking financial, risk, and operational KPIs.
- Supported data-driven financial and operational analysis used in client decision-making and performance improvement initiatives
- Applied statistical and exploratory analysis to support business and financial decision-making.
- Analyzed large datasets using Apache Spark to identify inefficiencies and improvement opportunities.
- Presented insights to technical and non-technical stakeholders.

Deloitte | *Audit and Assurance Intern* *Victoria Island, Lagos* | **09.2021 - 12.2021**

- Supported audit engagements through data preparation, validation, and financial analysis.
- Assisted in internal control testing and reporting.
