Manushi Parajuli

Richardson, Texas | 469.456.1674 | manusi.parajuli@gmail.com | github.com/manushiparajuli

Education

MS in Business Analytics, *Texas A and M – Commerce* GPA: 4.0 | Graduation: Dec 2026
BS in Computer Science, *University of North Texas, TX* GPA: 3.85 | Honors: *Magna Cum Laude*

COURSEWORK: Database Administration, Data Visualization, Python Programming, Data Modeling, Data Structures, Statistics

SKILLS: Python, Java, JavaScript, SQL, Power BI, Tableau, Excel, SSIS, SSMS, Linux, HTML, CSS, AWS

Experience

Data Analyst, *Campus Recreation, TAMUC, Commerce, TX* Nov 2025 – Present
- Revamp **Power BI** dashboards, cleaned data, perform **SQL joins**, and improv KPI reporting accuracy by 25%.
- Conduct **Python**-based trend analysis, predictive modeling, and demographic insights, creating dashboards that guide budgeting, event scheduling, increase student participation by 18%, and optimize overall engagement.

Software Engineer Intern, *Code Gravity, Irving, TX* April 2024 – Jan 2025
- Performed data cleaning, transformation, and analysis using **Python** and libraries such as **Pandas**, **NumPy**, and **Matplotlib**, ensuring data integrity, handling missing values, and deriving insights through statistical analysis.
- Built **Tableau** dashboards with diverse visualizations, including heatmaps and geographic maps, leveraging **SQL** queries to extract and prepare data, supporting business decision-making.

Undergraduate Research Assistant, *College of Engineering, UNT, TX* July 2023 – Dec 2023
Java | Python | GitHub| Linux | Bash | ETL | Excel
- Developed a converter algorithm in **Java** to quantify the identified protein and peptides in database search.
- Conducted data cleaning, preprocessing, visualization, and analysis using **Python**, **SQL**, and **Tableau**, improving protein quantification accuracy by 22% with only 0.5% error.

UI/UX Website Developer, *Division of Student Affairs, UNT, TX* June 2022 – Aug 2022
- Transformed 20 outdated webpages into mobile friendly versions using **HTML**, **CSS**, and **JavaScript** in **Drupal** CMS.
- Achieved a 40% reduction in website load times through image quality optimization, efficient coding practices, and comprehensive SEO enhancements leading to reduced bounce rates and boost in organic traffic.

Projects

MKTBA Hackathon (2nd Prize), *TAMUC, Commerce, TX* Dec 2025
- Built AI-driven **Python** app integrating GROQ **LLM** to personalize learning, track progress, optimize engagement.
- Automated app analytics infrastructure, monitored **KPIs**, and applied predictive models to enhance user outcomes.

Alteryx Datathon (2nd Prize), *Alteryx* Nov 2025
- Analyzed 15K+ ER visits at Meridian Hospital using **Python**, **Alteryx**, and **Power BI** to identify triage, treatment flow, and wait-time bottlenecks, building predictive models to forecast wait times and optimize staffing and workflows.
- Developed dashboards and staffing recommendations that reduced patient wait times by 11% and won 2nd prize.

Data Analysis and Visualization, *Southwest Airlines* Feb 2023
- Used **PostgreSQL**, **Python**, Power BI, and GCP to analyze passenger data and forecast flight trends for the year 2022.
- Developed predictive model and suggested cutoff flights from a few minor cities to optimize profit by 10%.

Leadership and Awards

- AWS Certified Data Engineer
- Rick & Perry Leadership Award
- Agile Project Management
- President of ACM
- Vice-President of MKTBA
- NSBE Hackathon AI Award
- Transfer Excellence Summit Award
- Engineering Departmental Scholarship
- International Students Scholarship
